Profile

I am a Los Angeles based 3D environment artist who mixes keen creative, visual aesthetics and problem solving skills, to develop environment sets with a semi-realistic feel.

Summary of Skills

CONCEPT AND DEVELOPMENT

- Integrate research into relevant concept ideas through rapid-fire synthesis techniques
- A keen eye for spinning narrative and life into environment set pieces.
- Maintaining the production pipeline and meeting deadlines

MODELING, TEXTURING AND DESIGN

- Passionate and knowledgeable about 3D art workflows
- Creating high quality environment assets suitable technically and artistically to the project universe
- Modeling and texturing high poly and low poly environment assets.
- Experience creating high quality creative/visual aesthetics as well as technical knowledge

COMMUNICATION

- Manage communication with colleagues .
- Flexible and thrive in collaborative environments.
- Working with teams to maintain consistency through the game world and ensure game flow is optimal around assets.
- Self-motivated, with the ability to critique own work for improvement and an autonomous work ethic.
- Ability to adapt with minimum guidance on new styles, techniques and workflows
- Independent and organized
- Passionate about playing and making video games
